What Happens After The Session?

Within one week of your Photography Session you will be provided with a soft-edited preview gallery consisting of a variety of images to choose your favourites from. Images within your soft-edited preview gallery will consist of colour corrections and minimal edits, and will include a large watermark over the images.

These soft-edited images are not the final edited images. Due to the amount of time it takes to fully process and perfect the full and final edits, in line with my style I only edit the photographs that you choose as part of your Image Package. Please have a look at examples of my photography and editing style on my website and social media pages.

Your soft-edited gallery will be open for four weeks for you to purchase your Image Package from (separately, and in addition to, the Photography Session cost). Once purchased, your final edited images will be ready within two weeks.
